

Stretch Wrapper

Silent Features:

- * Robust construction
- * Controllable cycle time
- * Safety features incorporated
- * Indigenous design
- * User friendly
- * Easy manipulation of load to provide bi-directional wrapping
- * Low power consumption
- * Variable speed

STRETCH WRAPPING MACHINE.

The concept of stretch wrapping as the name suggests entails the use of stretch-cling film.

The stretchy film is stretched around the product / carton. The film clings to the previous layer of film. The cycle keeps on repeating till the entire product / carton is covered with film. Designed to enable cylindrical products to be wrapped with LD / LDPE stretch film.

BENEFITS

- * Protection from dusts, moisture and foreign particle
- * Gives stability to the pack
- * Scratch resistant
- * Handling becomes easy and fast
- * Economical mode of packing
- * Prevent telescoping of rolls
- * Saving packaging labor & time
- * Attractive packing for printed boxes, Better identification of wrapped products
- * Low maintenance cost

TECHNICAL SPECIFICATIONS:

Machine Dimension	L-56" x W-31" x H-83"
Cartoon Size	30" x 30" x 30" Max.
Cartoon Weight	50 Kg. Max.
Wrapping Rate	20 to 70 Carton/hour
Power Consumption	750 Watt
Power Supply	220V AC.

• Manufacturer reserves all rights to change product specification & its design without prior intimation.
